

DO YOU SUFFER FROM FACIAL ACNE?

Dermatology, Laser & Vein Specialists of the Carolinas is currently looking for subjects for a clinical research study. This study will evaluate the safety and efficacy of the Ulthera® for the treatment of moderate to severe facial acne.

Ulthera® has been approved by the FDA for cosmetic use to lift the upper brow since 2004. Now, Ulthera® seeks approval by the FDA to treat medical conditions like acne. Ultherapy utilizes focused ultrasound technology and requires no needles and no downtime!

If you think you may be a candidate for this unique study please contact:

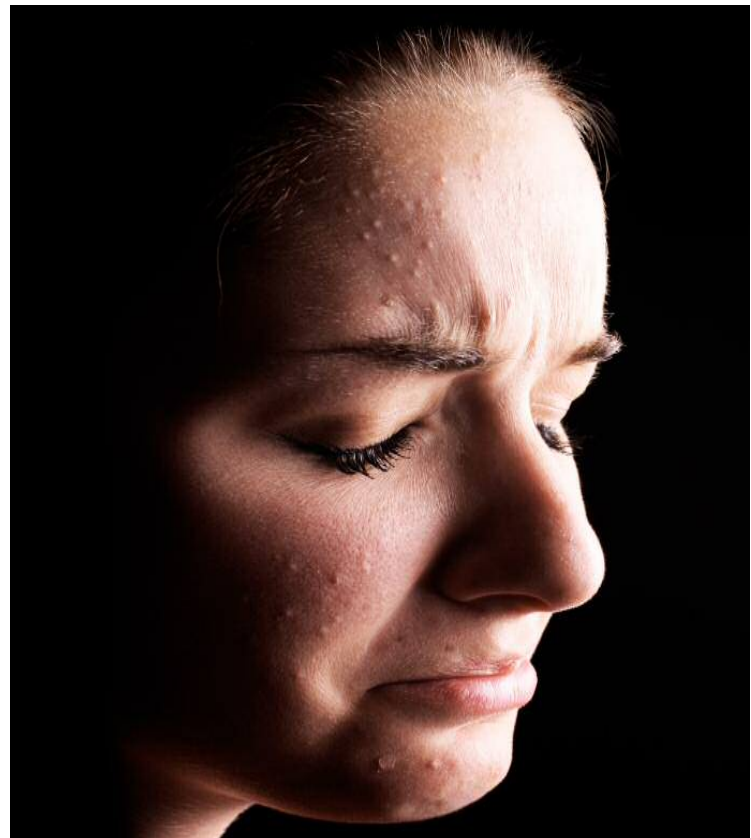

**Cindy Tucker, RN, CCRP or Donnia Rose at
(704) 973-3606 ext. 3606
Email : info@carolinaskin.com**

Inclusion Criteria:

- Male/Female age 18 years or older
- Presence of moderate to severe facial acne
- Willing to discontinue use of oral or topical acne medications for the duration of this study.

Exclusion Criteria:

- History of Keloid scar formation
- Significant scarring in the area to be treated
- History of Herpes Simplex of the face
- History of Accutane® use within the last 6 months.
