

DR. GILLY S. MUNAVALLI

DERMATOLOGY LASER AND VEIN
SPECIALISTS OF THE CAROLINAS
CHARLOTTE, NORTH CAROLINA

American Board of Dermatology

WHAT COSMETIC PROCEDURES DO YOUR PATIENTS DEMAND THE MOST?

For patients seeking improvement in skin texture, tone and pigmentation, the Spectra™ laser is all the rage. In a series of noninvasive and quick treatment sessions, patients of all skin colors will benefit and see appreciable results.

WHAT PROCEDURES GRATIFY YOU THE MOST?

Personally, I am gratified when a procedure that I perform changes a life. Sometimes it is a cosmetic procedure that helps my patients feel better and more confident. Other times it is Mohs surgery, where we remove skin cancers and reconstruct the skin to restore a natural appearance.

WHAT IS YOUR CORE TREATMENT PHILOSOPHY?

At DLVSC, our patients always come first. For me, listening to my patients is most important. All our surgical treatments are always performed by a dermatologist. I believe in always being available and accessible to my patients for ongoing care.

THE LATEST ADVANCEMENTS AT OUR PRACTICE

At our state-of-the-art facility, we are simultaneously attending to both the medical needs and the cosmetic concerns of our patients. We couple treatments—for example, photodynamic therapy and intense pulsed light, which are trends that are increasingly in high demand—because our patients love pairing the two. The ability to undergo a medically necessary procedure while also benefitting from a cosmetic, anti-aging enhancement is a win-win. At Skin Secrets, our on-site cosmeceutical boutique, our skin-care professionals educate our patients on purchases of the latest anti-aging, aesthetic and UV-protective products and clothing.

BEFORE

CASE 1

AFTER

▶ ENHANCING DEFINITION

This 54-year-old patient came to Dr. Munavalli to refine her sagging neck and double chin, and underwent tumescent liposuction of the neck with CoolLipo™ for a tighter effect.

BEFORE

CASE 2

AFTER

▶ FIRST-CLASS COMPLEXION

To improve this 71-year-old patient's aging skin, particularly the lines around her mouth, Dr. Munavalli performed skin resurfacing using the AcuPulse™ fractional CO₂ laser.

DR. GILLY S. MUNAVALLI IS A RENOWNED DERMATOLOGIST, RESEARCHER AND CLINICAL INVESTIGATOR FOR MEDICAL AND COSMETIC DERMATOLOGY. EQUIPPED WITH FELLOWSHIP AND INTERNSHIP TRAINING FROM INSTITUTIONS INCLUDING JOHNS HOPKINS UNIVERSITY AND THE MAYO CLINIC, DR. MUNAVALLI IS ALSO PART OF A VIBRANT CLINICAL RESEARCH GROUP THAT PARTAKES IN CUTTING-EDGE RESEARCH AND TECHNOLOGY FOR DERMATOLOGIC SURGERY.

WHAT SETS YOUR PRACTICE APART?

Our practice is one of the fastest growing centers for research of the skin, allowing our doctors and patients a sneak peek into the latest cosmetic treatments. We are a large referral practice for skin cancer treatments and varicose vein surgery, seeing patients from all over the Southeast.

WHAT ARE YOU MOST PASSIONATE ABOUT?

I like offering my patients the most advanced technologies and treatments and also being involved in the clinical research that develops them.

WHY DID YOU CHOOSE TO PRACTICE DERMATOLOGY?

I love that I can cosmetically enhance the appearance of the skin while also being able to perform life-changing medical procedures, such as removal of skin cancers and varicose veins.

HOW DOES YOUR STAFF ENHANCE THE PATIENT EXPERIENCE?

My staff is my most valuable resource. They are highly trained, extremely caring and very professional. It is their knowledge and dedication to patient care that makes us who we are.
